Put your money where the need is!

We've identified the three areas of greatest need within the organization, and will continue to support our community through the United Way. Donate to the program of your choice!

The Employee Education Fund offers financial support to any MGH employee, clinical or non-clinical, who wishes to develop their skills through education. Employee education is one of the most effective ways for MaineGeneral to remain on the leading edge of exceptional patient care. Every employee is eligible to apply for Employee Education Fund assistance. In 2023, 235 employees received a total of \$147,228 in assistance from the fund.

What the money will be used for: Your gift provides financial assistance for MGH colleagues to pursue professional development and continuing education opportunities.

The Harold Alfond Center for Cancer Care (HACCC) offers comprehensive cancer services in one location, close to home. The HACCC is undergoing a significant expansion and renovation.

What the money will be used for: Your gift helps add more exam rooms and chairs, improves work flow to better serve patients, broadens support services and allows for future needs as treatment for cancer patients advances and changes.

The HEART (Hospital Employee Action Response Team) Fund offers financial assistance to eligible MGH employees and volunteers who face catastrophic life events (for example, a fire, a major illness, domestic violence, an accident resulting in loss of work or property, etc.). In 2023, 93 employees received a total of \$120,352 in HEART Fund assistance.

What the money will be used for: Your gift helps your fellow MGH employees and volunteers in their times of financial need.

The United Way works to create long-lasting community change by addressing underlying causes of the challenges our region faces. United Way serves all communities in Kennebec County and partners with 58 local nonprofit and school-based programs – including several MaineGeneral programs – to provide a better quality of life for people who experience emergencies, hardships and personal challenges. Last year, more than 32,000 local people received assistance through a United Way program.

What the money will be used for: You may designate your United Way gift to one or more of the 58 community programs partnering with the United Way. Or you may leave your gift undesignated to serve “where needed most.” Your United Way contributions, designated or undesignated, are distributed in the next calendar year once they have been collected.

Honoring a Legacy, Shaping the Future

To meet the increased demand for cancer care, the Harold Alfond Center for Cancer Care is expanding. This \$36M project will increase the number of exam rooms, nearly double the number of infusion bays, create space for education and psychosocial services, improve patient flow and expand laboratory and pharmacy services. All gifts of \$365 or more to the Capital Campaign will be recognized with a naming opportunity at the center, honoring your generous legacy for years to come. Your gift commitment to the Capital Campaign will shape the future of local cancer care. Every dollar raised will support the expansion project.
