See reverse side for
beneficiary descriptions.

Put your money where the need is!

We've identified the five areas of greatest need within the organization, and continue to support our community through the United Way. Donate to the program of your choice and join a team of others supporting the same cause!

Behavioral Health services at MaineGeneral are critical for the health and well-being of our community. From inpatient acute stabilization to outpatient counseling, our behavioral health team provides a comprehensive range of services for individuals experiencing mental health and substance use disorders.

What the money will be used for: Your gift will strengthen key components of our behavioral health program, including patient transportation through the ACT Team, expanded access to care for uninsured and underinsured patients, program enhancements and other resources that reduce barriers to treatment and support sustained recovery.

Employee Education Fund offers financial support to any MGH employee, clinical or non-clinical, who wishes to develop their skills through education. Employee education is one of the most effective ways for MaineGeneral to remain on the leading edge of exceptional patient care. Every employee is eligible to apply for Employee Education Fund assistance.

What the money will be used for: Your gift provides financial assistance for MGH colleagues to pursue professional development and continuing education opportunities.

Epic will strengthen the financial health and long-term sustainability of MaineGeneral. This new electronic health record system will improve communication across MaineGeneral and with external health care providers, provide better user experiences for patients and medical staff, reduce duplication of efforts, improve diagnostic accuracy, streamline financial operations and so much more.

What the money will be used for: Your gift will support the operational costs to implement Epic.

HEART (Hospital Employee Action Response Team) Fund offers financial assistance to eligible MGH employees and volunteers who face catastrophic life events such as a fire, major illness, domestic violence, etc. In 2025 the HEART Fund helped 95 employees with more than \$87,000 in assistance.

What the money will be used for: Your gift will provide direct assistance to MGH employees and volunteers in times of financial need.

Mammograms provide essential, life-saving breast cancer screening and early detection for our community. MaineGeneral offers 3D digital mammography in Augusta, Gardiner and Waterville. From 2023–2025, we performed 55,255 mammograms. At the Alford Center for Health (ACH), a mammogram is performed every 15 minutes, five to six days a week.

What the money will be used for: Your gift will support replacing our 13-year-old mammography machines at ACH. Each machine costs approximately \$550,000, and every dollar helps ensure continued access to timely, high-quality breast cancer screening.

United Way serves communities across Kennebec County by partnering with more than 58 local programs — including seven MaineGeneral programs — to support people facing emergencies, hardships and everyday challenges. United Way brings people and resources together to improve the lives of individuals and families, touching more than 29% of local people last year.

What the money will be used for: Your gift will strengthen programs and initiatives that help people across Kennebec Valley meet basic needs and enhance early learning, financial security and overall community health. You may choose to designate your gift to one or more community partner programs (distributed the following calendar year), or make an undesignated gift.
